Hemachander completed his engineering degree in engineering science from the Madras Institute of Technology, before joining the film industry as an assistant film editor. In 1974, he co-wrote the lyrics for Kanna Vayasu ("Father and Mother"), which was the first Tamil film to be soundtrack-edited by him. He also composed the song "Panchathanthiram" for the same film. However, he became dissatisfied with being a screenwriter and composer, and turned to direction as a career. His film Kannathil Muthamittal received only the Tamil Nadu State Film Award for Best Director. He then composed the music for the film Thirumathi Thirumudivakku, and worked as a cinematographer for Thiruda Thiruda, which was the first Indian film to be entirely shot in Spain. In 1980, he made his first commercial film as the director for the Kannada film Penpattu Pogatam, which was a remake of the 1977 film of the same name directed by M. Karunakaran. It was the first Indian film to be produced in Nigeria. He has also directed the Kannada film Thavalan (2007) and the Telugu film Orida Bandham (2010), which both received the National Film Awards. His latest successful film as the director is the Tamil production Kandukondakan (2017) which stars Sathyaraj, Anushka Shetty and Kajal Aggarwal in the lead roles. He is also the producer of the Tamil film Kanni (2014). Download Ponnar Meniyane lyrics in tamil pdf 13 Hemachander's musical style is influenced by the Carnatic music of India. It is important to note here that these Carnatic songs that touched my heart have come out of different phases in my life. My youth was ruled by Lyrics from the Golden Era of the Eighteen Century. Then, my married life was ruled by Lyrics from the Golden Era of the Nineteen Century. Later, I went through

the lyrics of pure Tamil and spiritual songs after my personal love for the South Indian Spiritualism and Classics. The lyrics of these songs are quite touching and reflective and the spirit of the writer reaches the listener in these songs. The pure Tamil songs give me a sense of calm and tranquility ... after listening to them, you'll get swept away to a peaceful heavenly location. The compositions express the sorrow at the recent spate of violence. People around the world mourned the terror that is evolving into a global problem. These songs evoke the thought that the world is one place and acts of violence are perpetrated in all places around the world. That every human being has a soul. That's why we must not indulge in acts of violence and must help each other to live in harmony. I hope that you also enjoy listening to them. Feel free to share these Tamil Songs. These songs are extremely important to me and I am extremely passionate about this. If you are a Tamil lover, do yourself a favour and listen to these Tamil songs.
