

AstroLight 1.0 also contains a Gujarati Kundli matching program. You can also select the regional preferences on which to base the matching. For more information about the program, see the link at the end of this chapter. In order to start the application, select "Tap & tap" from the main menu of the program. After doing so, you will see the following window. AstroLight automatically scans all available kundli and matches the found kundli with Gujarati. This results in windows that contain the text corresponding to your kundli. You will see in the following illustration.

If you are familiar with such traditional and scientific methodologies as numerology and tarot, you know that the job of a consultant is to understand his/her client and to suggest a tailor-made solution that benefits both the client and the consultant. But how can you combine 2 completely opposite things like numerology and tarot into 1 single method? Here comes the answer: Assessment.
