The non-Windows version is AutoCAD LT. AutoCAD 2016-2018 AutoCAD 2016 and AutoCAD 2018 support a new object-oriented programming framework called Pro/ENGINEER® Architecture. The Pro/ENGINEER Architecture is designed to allow users to script the drawing process using an extensive set of tools. The architecture offers a complete paradigm for developing specialized tools in a simple, object-oriented programming language known as Pro/ENGINEER Architecture Scripting Language (PAX).
